Section 3: SAFER User Information

This section is used to enroll individual users that belong to the organization identified in Section 1.

[illegible]

Note: Authorized personnel enrolling in SAFER will be assigned a user name and password that can be used to access the **Official User** section of the FMCSA Information Systems web site at <http://infosys.fmcsa.dot.gov>. From this section of the web site the user can download the most current versions of all Field Systems software, software updates and documents.

*Field (18): Since FMCSA Technical Support is not part of the FHWA GroupWise e-mail system the e-mail address provided must be the individual's internet e-mail address not their GroupWise user name. For most Federal users this e-mail address is in the format of "First Name.Last Name@FHWA.DOT.GOV" e.g. **John.Doe@FHWA.DOT.GOV**.*

Field (19): Answer 'yes' if this user requires weekly ISS database refreshes. Note: Database refreshes MUST be downloaded on a regular basis to prevent users' mailboxes from filling up and to prevent long download times. If you have questions about how to answer (19) contact Tech Support at (617)374-5090

**Fields (20) and (21): The SAFER software program automatically generates the user ID and password fields. These fields will be completed by SAFER Support.*
